

## Company Overview

ESG is one of the UK's leading independent glass processors, providing the market with a comprehensive range of standard and highly technical glass products and services, developed through extensive research, development and testing.

Delivering a Total Glass Solution to businesses throughout the UK, ESG was founded on the principle of supplying what its clients need; and provides innovative products which help customers to satisfy the increasingly challenging requirements of Building Regulations and evolving legislation.

ESG's products include toughened, laminated, toughened laminated, secure EN356, bullet resistant and fire resistant safety glass for a wide range of industry sectors, and a host of different applications. These vary from chic interior architecture; for impressive reception areas and staircase balustrades; to practical requirements; such as fire resistant safety glass for doors, windows and screens.

ESG is delighted to consider any brief where toughened, laminated, processed or fire resistant glass is required, and to assist with advice, expertise and testing.

- Fast turnaround times
- Reliable, UK wide delivery service
- Comprehensive, innovative product range
- Full operational support including in house CAD team
- Proactive advice and expertise from industry professionals

For exceptional service, quality and product range, coupled with the latest production technology, come to ESG for all your glass requirements.

## ESG Team

We have built our business rapidly through significant investment in leading edge technology and the recruitment of an experienced team of glass specialists. We are strongly represented on a number of nationally recognised trade organisations and industry bodies, including the British Woodworking Federation, the Glass and Glazing Federation and the Association of Chief Police Officers' Secured by Design initiative.

## Quality Standards

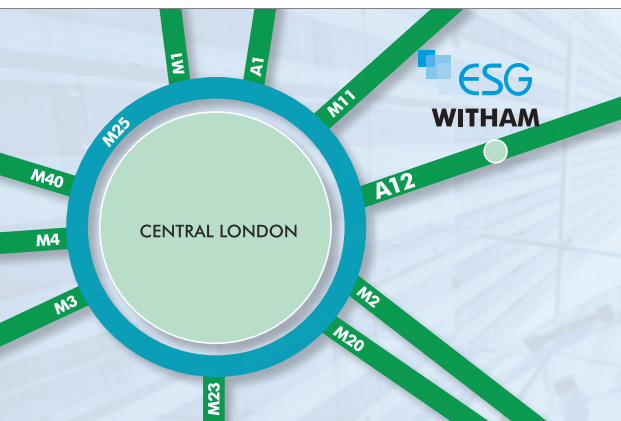

ESG products are covered under the scope of our Quality Management System BS EN ISO 9001 : 2008, and produced to high quality standards in accordance with the relevant British Standards Institute Kite Mark Licences. All ESG products are tested to the appropriate required standards for their use. These include:

- BS EN 12150-1 : 2000, BS EN 1863 : 2000, BS EN 14179-1 : 2005, and BS EN 14449 : 2005.
- Products are impact tested under BS EN 12600 and rated as a Class 1 Safety Glass.
- ESG Secure products are further tested to BS EN 356 : 2000.
- ESG Ballistic glass is further tested to BS EN 1063 : 2000.
- ESG Pyrotech™ fire resistant safety glass is further tested to BS476-22 : 1987, BS EN 1634-1 : 2000, BS EN 1364-1 : 1999, and BS EN 1363-1 : 1999.

## Delivery

Our experienced transport team operates a fleet of vehicles, from vans for smaller jobs, right up to 26 tonne lorries for volume contracts.

We pride ourselves on a reliable and efficient delivery service across the United Kingdom. Getting your order to you on time is as important to us as it is to you.

The more you tell us about your project, the better we can help you. Contact a member of our customer services team today on **01376 520061** to discuss your glass requirements.
